EDMONTON, ALBERTA—SATURDAY, JULY 18, 1936

69

Single Copy, Five Cents

Above are some of the last minute shots taken by The Bulletin staff photographer in his ramblings about the Exhibition grounds. Above is seen a close-up of the prize-winning Jersey cow "Dreams Primrose", grand champion 3 years old, owned by Kentucky Jersey Farms, St. Albert.

## WEST AGRICS FACE SERIOUS CROP DAMAGE

### Southern Sections of Canadian Prairies Need Drenching Rain

WINNIPEG, July 18.—Farmers in southern sections of the Canadian prairie face serious crop damage. Friday and Saturday rains were answered by only scattered, light showers.

Southern parts of Alberta, Saskatchewan and Manitoba blighted under the continuing heat wave which has prevailed nearly two weeks. In some northern areas, however, rains fell late last night and crop conditions in northern districts of all three provinces were considerably better than in the south.

### HEAT RECORDS TOPPLE

Heat records of many years standing toppled in southern Saskatchewan and Alberta while Manitoba, too, endured temperatures

## SOVIET PILOT TO FLY ROUTE

LOS ANGELES, July 18.—Studying a possible Russo-American air route the Soviet flying hero, Sigismund A. Levchenko, will take off here within a few days in a specially equipped plane for Anchorage and Moscow by way of Alaska and northern Siberian shores, he said today.

Navigator Victor I. Levencho will accompany him on the 10,000-mile tour.

### Naval Promotion

OTTAWA, July 18.—Paymaster Lieut. J. B. Howlands of the Calgary division, R.C.N.V.R., has been promoted to the rank of Paymaster Lieutenant-Commander the department of National Defence announced last night.

## REBELLION IN SPAIN BREAKS OUT MOROCCO

### Armed Force Revolt Reported Quelled—Madrid Quiet

By ALEXANDER H. UHL  
Copyright, 1936, by Associated Press  
MADRID, July 18.—Army troops broke out today against the Spanish government in northern Morocco but shortly after the interior announced to be quiet, a sudden revolt broke out at Melilla and spread to other parts of the Spanish zone.

Madrid was quiet. The rebellion broke out today against the Spanish government in northern Morocco but shortly after the interior announced to be quiet, a sudden revolt broke out at Melilla and spread to other parts of the Spanish zone.

## SOUTH AFRICAN WINNER KING'S PRIZE, BISLEY

### Historic Blue Riband Is Taken With Score Of 272

By THOMAS T. CHAMPTION  
Canadian Press Staff Writer  
BISLEY CAMP, Surrey, July 18.—Sgt. L. D. Boushous of South Africa today won the historic King's prize, blue riband and award of the National Rifle Association's Empire medal, for a score of 272.

Sgt. J. E. Johnson of South Africa was second with 271. It was the first time since 1920 that for the two world wars the prize was won by a South African.

Most of the prizes, he said, were going to the winners of the King's prize of £250 the N.R.A. gold medal and the N.R.A. gold badge.

General W. K. W. of South Africa was second with 271. It was the first time since 1920 that for the two world wars the prize was won by a South African.

## TODAY'S ODDEST NEWS

### GRASSHOPPER CRIPPLES BIRDS OF FEATHERS

GRAND ISLAND, Neb., July 18.—A Hall county farmer imported 300 turkeys to raise his flock of grasshoppers. The turkeys were sent out to herd the turkeys into root for the night.

## JURY DECLARES DEATH MISHAP

A verdict of accidental death with no blame attached, was returned by a jury of six at the inquest into the death of James Clark, 46-year-old plumber, who met his death by a 60-foot fall in the Canada Packers plant under construction in North Edmonton, Thursday morning.

## Alfred Lamoreux Dies Here At 68

Alfred Lamoreux, 68-year-old resident of Lamoreux, who is named after his family, and who has been a resident of Edmonton for 60 years, died in Edmonton Saturday morning.

## Hundreds Out-of-Town Visitors Inspect New Bulletin Modern Home

Canada's Great Need Is Filled Economically and Efficiently  
Taking advantage of being in Edmonton for the Exhibition, hundreds of out-of-town visitors inspected the modern newspaper building which is being erected by The Bulletin at St. George's Crescent and 10th Avenue as a demonstration of how Canada's greatest need at the present time can be filled efficiently, and economically, while at the same time giving an impetus to the building trade, which experts all agree, will do

more to bring about a revival in all lines of business in Canada than any other movement.

## LEGION RALLY IS BIG EVENT FOR VETERANS

### Will Join Forty-Niners For Sunday Church Parade—Dance Tonight

Making the Memorial Hall their headquarters, wearing their distinctive Canadian Legion Legionnaire and recalling the humorous side of the grim dark tragedy of war, Legionnaires from all points in northern Alberta exchanged yarns Friday and Saturday at the Canadian Legion Rally which is now being held in the city. More than 2,100 veterans have registered.

Those who didn't go to the exhibition and most of the veterans were out to play the piano, enjoy the midway and watch the show. Young's first class grandstand production Friday night.

## Police Look To Safety Of King's Brother

DURKE OF KENT, for whose safety the constabulary of the King has been their charge, and have doubled precautions.

## SCOTLAND YARD WANTS KING TO CHANGE HABITS

LONDON, July 18.—Scotland Yard officials, torn between a desire to please their sovereign and their duty to protect him, decided today that King Edward would have to be induced to change his habits.

An authoritative source, reflecting public anxiety over the attempt on the King Thursday, indicated pressure would be brought to induce King Edward to give up his strolls on the streets.

## USE AUTO

Instead of being able to mingle with his subjects, His Majesty probably will be asked to travel about London in an automobile, as his father, the late King George, always did.

George Andrew McMahon, who disturbed the Empire with his attempt against the King on Constitution Hill, was questioned again following military attention.

## COL. M'LEOD BURIED TODAY

With all the pomp and ceremony of a military funeral, Lieut. Col. W. G. MacLeod, P.O., well-known former Edmontonian, distinguished soldier, and war hero, was buried in the cemetery at Brandon, Manitoba, today.

At the graveside ceremony, Sir George Grey, K.C., was in attendance. The body was taken from the church to the cemetery followed by the military band of the Edmonton Regiment (4th Battalion, C.E.F.).

## WHEAT PRICES TAKE SLUMP

WINNIPEG, July 18.—Frustrated and stop-loss orders that found buying support lacking pushed wheat prices down on the Winnipeg grain exchange today.

Despite heavy exports and continued under the crop, wheat prices were 2 1/2 to 3 cents lower on the Winnipeg exchange. At 92c. October at 92 1/2c. and December at 91 1/2c. a bushel.

## 2 MARTELLS REACH SEMIS

The two Martell brothers, Henry and Paul, will be matched in the NICE Grand Prix. The French Riviera resort town of Saint-Martin last night while trying to sink a burning yacht at sea.

One of the shells landed in the village. One of them hit the saw mill, causing considerable damage.

## Today's Selections By Early Bird

FIRST RACE: Spring Valley, Don. SECOND RACE: Carban King. BROADWAY: Sweet Whittier. THIRD RACE: Winter Neighbor. DUNDAS: Sweet Pea. FIFTH RACE: Manora. PENINSULA: Penwiper. SIXTH RACE: De Lovely, Tricky. SEVENTH RACE: Argue. FOURTH RACE: Piper Bon. EIGHTH RACE: Silent Roar. Hedges, Hedges.

## CANADIAN BANK OF COMMERCE HAS NEW PLAN

Continued from Page One

able but not an essential qualification for the loan.

**LOANS FOR YEAR**

The loans run for a period of a year, and to assist the borrower in accumulating the total of the loan from his monthly income he is required to make twelve equal monthly deposits in a savings account so that the balance of the savings account at the end of the period will be sufficient to pay off the loan.

On this savings account interest at the current rate is allowed. Late insurance placed by the bank on the part of the borrower protects the estate of the latter and the guarantors in the event of premature death. The cost of this insurance is 50 cents per \$100 loan paid from the accrued interest on the loan.

**MINIMUM CHARGES**

The loans are discounted at the rate of 6 per cent. A service charge of a minimum of 50 cents and a maximum of \$5 is made, depending on the amount of the loan. Typical examples of the cost of the service to the borrower are as follows:

Amount of Loan	Discount at 6%	Service Charge	Total
\$50	\$3.00	\$5.00	\$8.00
100	6.00	5.00	11.00
150	9.00	5.00	14.00
200	12.00	5.00	17.00
250	15.00	5.00	20.00
300	18.00	5.00	23.00
350	21.00	5.00	26.00
400	24.00	5.00	29.00
450	27.00	5.00	32.00
500	30.00	5.00	35.00

**Net Proceeds Monthly Deposit**

Amount of Loan	Net Proceeds	Monthly Deposit
\$50	\$5.57	\$5.00
100	11.14	10.00
150	16.71	15.00
200	22.28	20.00
250	27.85	25.00
300	33.42	30.00
350	38.99	35.00
400	44.56	40.00
450	50.13	45.00
500	55.70	50.00

If the borrower wishes to make more savings deposits in advance of the required dates he may do so provided they are in even multiples of the regular monthly deposit, and in that case he will receive by way of interest an amount of interest from his savings account.

**OF REAL ASSURANCE**

The bank emphasizes that it is not prepared to encumber people with loans which are not based on sound security, but it does feel that it is when the need to borrow arises through unforeseen emergency, particularly in the case of illness, dental bills, putting in the winter supply of coal, and other similar necessities, that the bank should be of real assistance by lending at low rates and on easy terms.

**A VALUABLE SERVICE**

The plan has shifted favorable comment from large employers of labor. The general manager of the bank, Mr. J. H. McLeod, said in the extension of banking credit facilities on a budget basis, the bank is to wage-earners and others in receipt of small income the bank is affording a valuable service. Already some large employers of labor have obtained the bank's particulars of the plan with a view to making it specially available to their employees so that the latter may know that there is a constant service now available to them which they may borrow in case of need.

**ROD McLENNAN, Westlock, was injured when knocked down by a car driven by Dr. Talbot, 1942 80th street, at 68 avenue, Sunday, July 13, at 11:30 p.m. Friday. He was taken to the University Hospital where his injuries are not regarded as serious.**

## Cops Still Tops

WEST AGRIERS FACE SERIOUS CROPPAGE

Continued from Page One

Although well below the all-time records established during the last week.

In Alberta, where a department of agriculture report stated that a harvest "of any consequence" had been abandoned in southern and east-central sections, highest temperatures in the province were recorded.

The reading at Medicine Hat was 104, highest since July 1936, when the mercury reached 104. Cattle reported a high of 100, Lethbridge 97 and Calgary 96.

**FROST DAMAGE**

Edmonton's high temperature was 80 with a low during the last 24 hours of 41. At Mundare, 60 miles west of Edmonton, frost damage to crops was reported. Wednesday night in low-lying lands after the mercury had taken a quick drop, accidentally demonstrated Friday.

Attendees at the fair Friday included 10,882, as compared to 15,267 for the same day last year. The exhibition, it was of such magnitude that fair-goers were not disappointed.

Part-mutuals had a good day at the fair Friday, as compared to 15,267 for the same day last year. The exhibition, it was of such magnitude that fair-goers were not disappointed.

## SCOTLAND YARD WANTS KING TO CHANGE HABITS

Continued from Page One

The King, however, was known to dislike being subjected in his private life to the publicity of the press. He was generally among his subjects as he did not like to be seen in public.

The chief constable of Buckinghamshire was not under the impression that the King would be likely to change his habits. He was generally among his subjects as he did not like to be seen in public.

The 101 street fire, inactive for a week, was again active Sunday morning when it broke out in the two-story frame building at 101 1st street, completely destroyed the premises in a two alarm fire which broke out at 4:30 a.m. Damage was estimated at \$1,000. The premises are fully covered by insurance.

Saturday's fire marked the second occasion that this building has been razed by flames in the last seven weeks. The previous fire destroyed the interior of the De Luxe barber shop. This time the fire started in the kitchen and spread to the top floor of the building and the De Luxe barber shop.

# TRANSATLANTIC RAILWAYS

## TRUCKS, BUSES PROVE THREAT TO RAILWAYS

### Canadian Lines Must Keep Step With Mechanical Developments

OTTAWA, July 14.—Canadian railways must keep step with mechanical developments like trucks, buses and airplanes or "become gradually lessening influence in a field which for many years was peculiarly their own," Hon. C. D. Howe, minister of transport warned Friday.

The transport minister, joined with Premier Mackenzie King in congratulating the railways of Canada in completing 100 years of operation. Their messages were directed to celebrations in Montreal today marking the centenary of the first railway in Canada which operated between La Prairie and St. John's.

On the occasion of the 100th anniversary of the establishment in Canada of transportation by rail, the prime minister's message read: "I desire to extend heartfelt congratulations to the officials and men of the Canadian National Railways, within whose system is included the original line over which the first train in Canada made its journey, and my cordial greetings to all who are engaged in providing for the community safe and efficient railway service. During the century which has elapsed since the first train operated between La Prairie and St. John's, the railway has played an essential and all important part both in the formation and in the development of our Dominion.

**BEST OF WISHES**  
"I should like to avail myself of this centenary occasion to convey to the Canadian National and to the railways of Canada as a whole, my best wishes for continued prosperity, for the growth and development of the country and for the prosperity in the years that lie ahead."

The transport minister traced the development of railways in Canada from the 16 miles between La Prairie and St. John's, now part of the Canadian National system, to 40,000 miles today. The railway development in Canada was slow and it was not until 1851 that Canada had over 100 miles of tracks, by 1900 it had 17,000 miles, he said.

During the subsequent period, Mr. Howe continued, "there was additional over-expansion of rail way construction."

The combined capital investment of Canadian railways had reached \$3,500,000,000, the minister's statement continued. Annual earnings were \$500,000,000 and operating expenses \$400,000,000. The latter sum, \$100,000,000 represented surplus earnings, leaving \$400,000,000 for the 130,000 employees.

"But," continued Mr. Howe, "growing out of this railway industry are other important considerations both local and national. Without the railway to give effect to the Confederation of the provinces, the Dominion could not have made progress as a nation, nor could commerce could not have expanded as it has. Nor could the great Canadian prairies have been settled and developed as they have been. Notwithstanding the great and continuing cost of the railways to Canada, the plain truth is that the country owes a great debt to the railways, and it is fitting that there should be appropriate recognition of the part played by the railways on the occasion of the celebration of their centenary."

**SUPREMACY CHALLENGED**  
Supremacy of the railways was challenged first by electric lines of suburban service. The second and serious threat was development of highways, trucks and buses.

"In the field of transport, as in most other callings, it is the survival of the fittest and most efficient, and to the present period of adjustment it will be necessary for the railways to keep abreast of the present trends and to anticipate the future unless they are to be gradually lessening influence in a field which for many years was peculiarly their own. It must be accepted that the automobile, the motor coach, and the motor truck are here to stay until they in turn may be superseded by newer developments."

**Lightning Hits Woman Hanging Clothes To Dry**  
RIMBEY, July 14.—Mrs. L. H. Chabot, of the Leaside district, 13 years' youngest of seven children, was injured as the result of a slight electric shock sustained while she was hanging clothes on a wire clothes line near a house on Leaside road. The wire was badly swollen but at least reports the condition has improved.

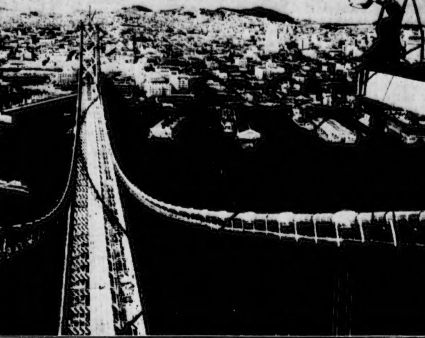

"While the same storm was in progress as the house owned by A. Baldrige and situated on an adjoining quarter section was struck by lightning and damaged by fire resulting from the lightning. The third lightning casualty was the killing of a fine two-year-old cow owned by George Taylor, of Leaside."

**Frost Damage In Wetaskiwin Area**  
WETASKIWIN, July 14.—Slight frost damage is reported in several parts of the Wetaskiwin district. Potato vines were singed in several farm gardens and low crops in some fields. Short grain and corn of considerable damage was reported which occurred in the early hours of Thursday. No loss of general damage is observable.

Apple peelings are said to contain six times as much vitamin C as does the pulp near the core.

## Huge Bridge Nearing Completion

### Automobiles Will be Passing over this great structure around November 15 of this year on route to the city of San Francisco into which it gives a direct entry. This view shows the paving form laid on the centre lane with the floor steel entirely erected on the west bay crossing. The bridge passes over a portion of San Francisco's famed waterfront, with the downtown business section seen to the right and twin peaks in the background.

## M'MAHON SAYS DID NOT PLAN TO KILL KING

### Would-Be Assassin Examined by Physicians in Mental Ward

By RUDETT T. JOHNS  
Associated Press Staff Writer  
LONDON, July 14.—King Edward's grateful subjects poured by the dozens upon busy Scotland Yard Friday to tell the tattered story of Constable Hill while physicians examined a seeming would-be assassin in a prison hospital mental ward.

The "yard" said its officers were "floored" by letters in response to an appeal for clear evidence of what happened after Wellington Arch Thursday.

Stenographers took scores of pages of depositions from witnesses in the case against George Andrew McMahon, 34-year-old crippled Irishman when his neighbor called "water a crack."

A charge of carrying a revolver with intent to "endanger life" still stood against McMahon, although he was reported authoritatively to have declared Friday he would never use a gun. He had no intention, he insisted, of shooting the sovereign.

He had no intention, he insisted, of shooting the sovereign. McMahon's duties today, after perusing scores of messages of congratulation on his escape which were heaped on his desk at York House.

**IN EXCELLENT SPIRIT**  
"The Majesty is in excellent spirit, perfectly calm. I have never seen him less nervous," a Dominion's official who talked with him at Buckingham Palace yesterday.

"He sat there and laughed and talked and displayed keen interest in questions he wished to discuss with me. I took from me, he is very well and very busy, with no time to worry about this happening as that on Constable Hill. Late yesterday afternoon, after a day of official business, the King dined from Buckingham Palace to York House."

**CROWDS CHEER**  
Waiting crowds cheered lustily and His Majesty acknowledged the acclamation with nods. Guards were not increased either at Buckingham Palace or at any other Royal property frequented by the King Friday.

Authorities explained McMahon's act as "isolated case" and not the work of terrorists or a gang. McMahon, who was reported to be a hospital ward under mental examination, said he was "not a sane man."

It was indicated a full mental examination might be completed before he appears in court again a week from yesterday. McMahon, who was reported to be a hospital ward under mental examination, said he was "not a sane man."

He always regarded himself as King.

## PET DOGS, CATS HALTING BIRTH RATE

BERLIN, July 14.—Pet dogs and cats are interfering with the birth rate in Germany. This is a charge made by the monthly Berlin publication, "Neues Volk," which asserts that an excessive number of pet dogs and cats are being substituted for babies in many families.

The magazine asserts that in one boarding house in Berlin, a fashionable one, there were 14 dogs divided among ten families and only four children, all in one family.

## PLANE WRECK FOUND IN SEA

VENICE, Calif. July 14.—Life guards found what appeared to be the tail and elevators of an airplane in the surf Friday.

The battered piece of wreckage had apparently been in the water a long time, was stamped with the name "Canadian Airways, Ltd." It bore the number "RD-10-25-25."

Life guards took the wreckage away from some small boys who had been playing with it. Montreal, July 14.—Romania, superintendent of Canadian Airways Limited, said he did not believe parts of a wreckage found at Venice, Calif., belonged to a Canadian Airways machine.

He said some of our machines have been missing or unaccounted for, and he had been told that the wreckage had been found in the vicinity of Venice.

**Old Timer Dies At Three Hills**  
THREE HILLS, July 14.—J. P. Peterson, 82, died of time of the heart at his home here. He was born in Sweden, immigrated to Canada in 1897, and was a resident of Three Hills for 37 years.

He leaves two daughters, Mrs. A. P. Nelson, Slave Lake, and Mrs. T. E. Davidson, initial and three sons, Frank, William and Fred, all of Three Hills.

**Neighbors Added McMahon Held a License for Driving**  
The neighbors added McMahon held a license for driving, the police, who had not previously known of his license, said they had not known of his license, said they had not known of his license.

**DESIGNED WITH VISITORS**  
Died, employed as a travelling salesman by a firm making a type of furniture, he was believed at the firm's office with visitors who came to congratulate him. They also kept him awake all through the night to keep him from sleeping.

The expression of the old woman, who greeted Constable Hill after the affair on the Hill summed up the feeling of the Empire. "God bless you, my boy, for saving our King."

## SOCCERS ASK DISMISSALS

DEUMHILLER, July 14.—Soccer officials have commenced an agitation to have a change in the rules of the game. The officials are not satisfied with the "regulations" which took place in May last. At a committee meeting of the Soccer Club group held Thursday night at Kinsdale with Herbert Ingram, M.L.A., present, a resolution was passed recommending the dismissal of C. Smith, a referee, and the appointment of a new referee, because his attitude was "detrimental to the game."

It is understood that other recommendations will be made, including the dismissal of sub-former following a statement attributed to the Hon. W. Cross, minister of health and relief, to the effect that in future all referees shall be members of the ranks of permanent employees.

Smith's appointment followed the dismissal of Edward Gottschalk in May. Gottschalk was at first left off the list of referees, and later given a sub-former's job.

**CORN BELT IS STILL SEARED**  
CHICAGO, July 14.—The 15-day heat wave softened its punches Friday but not for the corn belt. That fertile farm sector saw additional millions of bushels burned from its expected yield as temperatures rose again to high in the 120s and 130s. The weather bureau forecasters by then held out hopes of "showers" for the week ending July 20, but officially to 116 degrees elsewhere in the state.

A half dozen other states of the corn belt are now in the "100 plus" oven belt. No general relief was sighted; by central weather bureau forecasters by then held out hopes of "showers" for the week ending July 20, but officially to 116 degrees elsewhere in the state.

**Ghost Lights Guide Pilots**  
The lights are controlled by a "robot eye" and "brain" contained in a small box fixed on the spine of the chaser. In it is a camera which takes a picture of the plane which reacts to light just as does the human eye.

When dusk reaches a certain intensity from whatever cause, the eye automatically switches on the red warning light at each end of the building.

**ST. MICHAEL HAILED OUT**  
LAMONT, July 14.—Hail on Friday afternoon swept districts north of the city, including Andrews, St. Michael and Leestown. Districts north of St. Michael were hailed with hail from one to three inches in other districts.

The expression of the old woman, who greeted Constable Hill after the affair on the Hill summed up the feeling of the Empire. "God bless you, my boy, for saving our King."

**Five-Ton Chord of Steel Goes Into Place—Nears Completion**  
SAN FRANCISCO, July 14.—Fifteen men unceremoniously drove a five-ton chord of steel into place Friday and closed the last gap in the San Francisco-Oakland Transbay bridge, making the great structure more than 90 per cent complete.

Placing of the chord left only the center structure of the kind in the paving, the final riveting and the application of a few odds and ends to complete the \$7,200,000 structure, which will start carrying traffic November 1.

The bay bridge, listed as the picturesque sister, the Golden Gate bridge, is to be celebrated with an international exposition in 1935. The \$33,000,000 Golden Gate bridge, longest, single suspended span in the world, will carry highway traffic between San Francisco and the coastal area of northern California. The steel deck now is being laid.

## LAST GAP IN SAN FRANCISCO SPAN CLOSED

Placing of the chord left only the center structure of the kind in the paving, the final riveting and the application of a few odds and ends to complete the \$7,200,000 structure, which will start carrying traffic November 1.

The bay bridge, listed as the picturesque sister, the Golden Gate bridge, is to be celebrated with an international exposition in 1935. The \$33,000,000 Golden Gate bridge, longest, single suspended span in the world, will carry highway traffic between San Francisco and the coastal area of northern California. The steel deck now is being laid.

**Hungry Hoppers Leave \$5 Bill**  
MAHOMET, Ill., July 14.—A sixth Missouri found the pocketbook left last night previously in a cornfield, but a grasshopper was there before him. They left him a \$5 bill, the third lining unit \$3 bill.

**NOT TO OPEN RELIEF CAMPS**  
OTTAWA, July 14.—Relief camps for transient unemployed will not be opened next winter if the government's present intentions are carried out. Hon. Norman Rogers, minister of labor, declared Friday.

In a joint interview with the press, Rogers said that he was associated with A. B. Purvis, director of the national commission on employment and relief, the committee will not recommend the opening of further camps if the unemployed would prefer to work on the basis of system of training camps.

California's fish industry in 1931 valued at more than \$25,000,000.

**9 DEAD WHEN AUTO STRUCK**  
DUNDEE, Mich. July 14.—Nine persons were killed when the automobile in which they were en route to their homes in Pennsylvania was struck by a train at an Abner railroad passenger crossing near Dundee, into the train river this morning.

**Girl Found Dead**  
FRENCH RIVER, Ont. July 14.—Dolphin Street, 17, daughter of Mr. and Mrs. Thomas Scoll, French River storekeeper, was found dead in a rooming house. She was taken from her room after being refused permission to go on a car ride with a party of young people. A brother and four others were killed in a house fire accident near here two years ago.

**Transatlantic Telephone Call Costs Man \$1400**  
BRITISH UNITED PRESS  
LONDON, July 14.—The most expensive transatlantic call ever made cost \$1,400. It was put through by a man who proposed over the Atlantic telephone to his girl in America.

By the time the call was made, the man, William Womersley, assistant postmaster-general, speaking 19 members of the British Association at Scarborough, said, "I am sorry to hear that you are not well, but I hope you will be able to come to the conference in the autumn."

**Transatlantic Telephone Call Costs Man \$1400**  
BRITISH UNITED PRESS  
LONDON, July 14.—The most expensive transatlantic call ever made cost \$1,400. It was put through by a man who proposed over the Atlantic telephone to his girl in America.

By the time the call was made, the man, William Womersley, assistant postmaster-general, speaking 19 members of the British Association at Scarborough, said, "I am sorry to hear that you are not well, but I hope you will be able to come to the conference in the autumn."

## Nazi Film Star, But U.S. Wife

The King, who served himself during the Great War, will join with President Lebrun of France and Prime Minister Mackenzie King of Canada speaking from Ottawa in celebrating the twinning monument.

There he will visit again the trenches where thousands of Canadian soldiers died in the conflict that flamed around Vimy Ridge and turned the villages of the Douai plain into rows upon rows of charnel houses.

An overseas contingent of 6,000 Canadians, ex-service men with their wives, will be balled in the old battle towns about the Ridge, waiting to participate in the ceremony which will be the last of the great white expanse of the Vimy Ridge.

**SPUD PATCH STARTS ALL OVER AGAIN**  
LAMONT, July 14.—Potatoes left in the ground last year on the farm of Joe Swankie, owing to early freeze-up, were again grown into a regular spud patch and are now being billed the same as his regular crop.

**NINE KILLED IN MELILLA FIGHT**  
CASABLANCA, French Morocco, July 14.—Nine were killed in the revolt of Spanish troops at Melilla, Spanish Morocco today said inhabitants of the Spanish zone who crossed the frontier into French territory.

They added that many were wounded at Larache, in which the rebellion spread. A general strike was called after the army had taken possession of all civilian posts.

**Girl Found Dead**  
FRENCH RIVER, Ont. July 14.—Dolphin Street, 17, daughter of Mr. and Mrs. Thomas Scoll, French River storekeeper, was found dead in a rooming house. She was taken from her room after being refused permission to go on a car ride with a party of young people. A brother and four others were killed in a house fire accident near here two years ago.

### THE EXHIBITION

By every standard of measurement available  
to the onlooker, the Edmonton Fair has been  
an undoubted success, and when the accounts  
are made up there is every reason to suppose  
the financial results will be found all to the  
good.

The exhibits, displays and attractions were  
uniformly good. The weather fortunately was  
the best that could be desired. The crowds  
were large and orderly. There was an absence  
of offensive features. There was variety and  
novelty aplenty.

Anyone who could not find much to interest  
him on the grounds must have been hard to  
please, and one of a very small company. Those  
who were interested in crops, stock, machinery,  
manufactures, inventions, had opportunities to  
learn about these. Those who sought entertain-  
ment were well provided for. And for the  
chap who aspires to best somebody at his own  
game, the opportunity was not absent.

The fair, it is safe to say, has left a most  
favorable impression with the visitors; and they  
are likely to come again next year. That  
fact, a fair can give no better evidence of  
keeping pace with the times. And for the  
city, it has been a most successful one.

### NO EXCUSE FOR EXISTENCE

Mr. Dunning has told us the law govern-  
ing small loan companies is to be overhauled  
at next session of parliament. That evidence  
is needed. One of these concerns was con-  
victed in a Montreal court the other day of  
charging its "clients" \$400 per cent per year interest.  
The judge tried to tell the manager what he  
thought of him, but naturally not succeeding  
in any adequate way. He imposed a fine of  
\$500, which was presently paid, and the present  
law allowed in the circumstances.

When this law is revised there should be  
lengthy jail terms for the operative heads and  
board of directors of such companies. They  
should be put in jail together with provisions for  
cancelling its license, confiscating its assets for the  
benefit of its victims, and putting it completely out  
of business.

### FRANCE ALSO EXPERIMENTS

The Government of France is doing some ex-  
perimenting, which may be as interesting and  
important as President Roosevelt's "codes" and  
Alberta's try for dividends.

Ten French armament factories have been  
or are to be taken over by the Government  
and operated as national industries. The outcome  
will be awaited with interest and hope by peo-  
ple in all countries who know something of the  
machinations by which armament-making com-  
panies keep the armament-makers in the war of  
war, and buying munitions. Should it be found  
that a Government cannot supply itself with  
munitions, the outcome will be from the war of  
war, and buying munitions. Should it be found  
that a Government cannot supply itself with  
munitions, the outcome will be from the war of  
war, and buying munitions.

The other experiment has to do with finan-  
cing, and may be equally important. The  
new Minister of Finance is short of money.  
The orthodox way to get it would be to let the  
Bank of France issue it, and pay interest to the  
Bank. But the Minister is not orthodox. He is  
taking possession of the Bank and will issue  
the credit to the Government, without any in-  
terest to pay. Since there is no interest to pay,  
he sees no reason why the Government  
should not do the increasing issue and save  
the interest. If this plan is carried out, the  
Government borrowing in every country will be  
doomed.

### WAGES PREFERRED

The single unemployed men want the Provin-  
cial Government to shut up the "soup  
kitchens" and pay them \$5 a week each in cash  
or vouchers.

It is to be hoped the Government can do this  
—paying the \$5 a week, of course, as wages for  
work. It might be possible to make an arrange-  
ment with the city, where the men could be  
employed part time on city improvements, if

it is not practicable to have them do Govern-  
ment work on that basis.

There are plenty of civic improvements  
needed to keep them busy for the few hours  
per week required to earn the \$5. Since the  
province must apparently pay out the money in  
any case, or keep the kitchens open, it will be  
no worse off if the recipients work out their  
allowances on city betterments than if they do  
nothing.

### RENEWING THE PROMISE

Everyone will be glad of the renewed as-  
surance that we are all to get our dividends be-  
fore the eighteen months of age. There has  
been no doubt of promised prosperity to make  
a gift of \$25 a month a matter of no particu-  
lar concern. Quite the contrary. Farmers  
in a considerable part of the province have lost  
another crop, and are that much worse off than  
a year ago. Thousands of unemployed have  
lost another year's wages, and are also that  
much worse off.

The dividends are needed, even more than  
when they were promised a year ago, and may  
be needed more than ever. They are needed, by  
now, by all the signs. The reassurance is there-  
fore timely, and also welcome.

And, as things have been going, it was need-  
ed. For the financial operations carried through  
on the advice of Mr. Major have necessarily and  
very considerably destroyed confidence that  
the dividends would be paid. Under the ex-  
pert guidance the Government has been head-  
ing away from dividends, not toward them, and  
traveling fast.

A twenty per cent bond in taxation, to be  
followed by a 52 per cent road tax, is no part  
of a Social Credit plan, nor conformable there-  
to. We have been straight along the road of  
"sound money"—possibly excepting the doubt-  
fully legal cut out of bond-interest rates by  
arbitrary action.

It is something to know that the dividend  
plan has not been abandoned, though what has  
transpired creates a suspicion that it may turn  
out to be nothing more than a plan to collect  
taxes and distribute the proceeds. That would  
not be what was promised, nor would it be  
Social Credit.

### Fifty Years Ago

From the Files of The Edmonton Bulletin

Telegraphic items from Winnipeg:

Hon. John Carling will shortly visit the  
North West.

The Glenora Company has been given the  
North West Central Railway charter.

Several anti Scott outcrops of a gross  
character were well provided for. And for the  
chap who aspires to best somebody at his own  
game, the opportunity was not absent.

The fair, it is safe to say, has left a most  
favorable impression with the visitors; and they  
are likely to come again next year. That  
fact, a fair can give no better evidence of  
keeping pace with the times. And for the  
city, it has been a most successful one.

When this law is revised there should be

## The Passing Show

By J. S. COOPER

"There's not so quiet as folks," as the  
Lancashire people say. While the Vancouver  
Golden Jubilee celebration was at its height,  
some elevators found out their strength by  
tearing down United States flags that de-  
corated the fronts of stores on the principal streets.  
The men in charge of the party, the  
merchants received letters from the  
vandal, making more direct threats if the flags were  
replaced. A city of half a  
million people must harbor a  
few of every kind of crank,  
but crankiness of that kind  
at a time when visitors from  
United States have our in-  
ferior roads and our dear  
beer, to be drunk only under  
bad and sad conditions, in the most of  
friction, is one of the most foolish  
and ill-mannered forms of mild insanity.

There's a very genuine spirit of neighbor-  
liness between the residents of the Pacific  
States and the Pacific province. In return for  
an oratorical blast from Mayor "Gerry" Mc-  
Gee during the Fourth of July celebrations at  
Seattle, the residents of the Pacific States  
piped their band through in the Americans re-  
ceiving the compliment handsomely. They sent  
a battalion of men to guard the parade, and  
ver—a fitting tribute to the devastating power  
of the McFitter tribulation.

Discovery that a naval petty officer in the  
American navy has been for some time acting  
as a paid spy for Japan, will not be lost on  
the Canadian people. The petty officer, who  
of the fifteen years' sentence imposed on him.  
War is hideous enough in itself.

It was stated in the Canadian House of Com-  
mons a few weeks ago by Tom Kind, M.P., for  
Westminster, that the best maps of the  
Pacific coast are those issued by Japan. Many  
a simple Japanese sailor has a plan to take  
revenge—spends his spare time making sound-  
ings and perfecting the charts of our islands  
and inland waters.

Jealous eyes have been casting envious  
glances at the North American Continent, from  
the decks of Pacific steamships and possibly  
from the observation of the dirigible in  
Lindbergh on its recent unauthorized trip over  
the Gulf of St. Lawrence and Lower Canada.

It is a pity that the Canadian people are  
not more united in their opposition to the  
willful overflight of the dirigible in Asia  
will overflow onto this peaceful continent if  
the plans of foreign war-lords come to fruition.  
In the meantime we must be thankful at  
being spared those imminent horrors of aerial  
war that threaten the crowded populations in  
the cities of Europe.

All this makes it the more incredible that  
a newspaper like the Chicago Tribune should  
publish a headline in its morning edition, head-  
lined, "The British Loss of the Ethiopian War."

A person unaware of world events would  
think that Britain had been a combatant in-  
stead of a peace worker. It starts:

"Ethiopia is conquered. The British Em-  
pire is whittled away." Great Britain's posi-  
tion in the world is being undermined. The  
accepted the dare and took the best his  
European opponent tossed at him. He comes  
out the winner.

Can it be that the lady or gentleman who  
wrote this leading editorial was under the im-  
pression that Britain was at war with Italy?  
Or is it the evidence of a consciousness that  
by remaining out of the war, the British im-  
munities to Italy after the League of Nations  
decided trade in an effort to stop the rape of  
Ethiopia without bloodshed.

The British Empire is being undermined. The  
accepted the dare and took the best his  
European opponent tossed at him. He comes  
out the winner.

The child's prattle runs on:  
In the colonial wars preceding the American  
revolution the colonies learned that they had  
little to learn from the British army. They  
ceased being impressed. They did not af-  
raid to try conclusions.

The troops from the dominions had  
succeeded in the same way. They had learned  
in the World War. They ceased to regard  
themselves as better than the troops from  
Great Britain and to prefer their own  
commanders to British generals of great name.

Now, defeated by Italy in a war of na-  
tional will, the British reputation as a  
world conqueror declines. It may be found  
later that these were the days in which a  
historic power closed the great pages of  
its career.

Let us repeat, the Chicago Tribune is not  
a heart party. On the contrary it has an in-  
telligent and wide circle of readers. It seems  
incredible that a great newspaper could per-  
petrate such a piece of nonsense, even though  
Jove does not now and then.

Yet we'd far better be living alongside  
neighbors who annoy us at times than their  
boast and ignorance of the fitness of things  
than alongside cultured assassins and genial  
plotters of national mayhem and murder.

A friend who has lived in Ethiopia and is  
acquainted with the difficulties of the country  
has written a military policy which will save  
Italy to settle the country. It will be dan-  
gerous for settlers away from lines of military  
occupation. It will be dangerous even for the  
armies of occupation. It will be dangerous for  
the assassination last week of Air Chief, General  
Magliocco; Colonel Antonio Locatelli, one of Italy's  
most famous air pilots, Col. Carlo Calderini and  
others.

There is said to be an Ethiopian army of  
115,000 men within fifty miles of Addis Ababa.  
Much guerrilla warfare is taking place with  
military truck drivers as the chief victims. The  
object is to raid trucks for arms, ammunition  
and supplies.

The end of July seen the season of heavy  
rains begin. A man is better off on a sun-  
bather than on a soldier. The rains are in  
Alberta or the middle states, then standing  
guard for Mussolini in Ethiopia.

Britain now has 2,000 golf clubs.

## Avoid Fatigue

By DOCTOR FRANK MCCOY

It seems that everyone complains of being  
tired at the end of the day. This is in spite of  
the fact that men and women are doing less  
work every year than they were doing ten years  
ago. It is really true that the heavy work and  
thus save muscular strength.

It would, indeed, be difficult to find a  
person who is not tired at the end of the day.  
The average person takes from two to three  
times as much food as the body could possibly use,  
and when no muscular exercise is required in his  
work and he does not do vigorous physical culture  
exercise, only a very small amount of food is  
needed to repair the cell structure of the body.

If two or three times as much food is used  
as the body can convert into tissue, the result  
will be a toxic state which cannot be used.  
The food will then be stored in the body, and  
becomes thickened and sluggish, and fatigue of  
brain and body is the result. If fatigue is in-  
duced by this cause, the only cure is to increase  
your exercise and decrease your food.

Extreme toxic states of the body are also  
produced by wrong mental conditions. Anxiety,  
worry, depression and thoughts of hatred, malice  
and envy will surely poison the body in a  
very definite way. So if your day has been  
a bad one mentally, you can be sure that when  
night comes that you will be exhausted and  
tired from the effects of such mental poisoning.

There are many nervous people who are in  
such a condition that they will be exhausted and  
tired from the effects of such mental poisoning.

## SIDE GLANCES — By George Clark

"Look in the paper and see what political rally mamma is addressing this evening?"

## On This Date

A Day in Canadian History — by FRED WILLIAMS

On this date in 1838 the Earl of  
Durham, who had been sent to the  
Canadians to investigate political conditions and report to  
London, paid a visit to Toronto.  
His visit was not popular. The  
Reformers feared that he would  
be a result, when the Earl  
arrived by steamer from Kingston.  
The Reformers feared that he would  
be a result, when the Earl  
arrived by steamer from Kingston.

GOOD LUCK, EDMONTON!

The program of annual exhibi-  
tions passes on this week to Ed-  
monton. The Albertan's hope now  
is that Edmonton people and  
their neighbors from the sur-  
rounding country will enjoy  
themselves as thoroughly as  
Edmontonians and their friends did here  
last week.

At the time of writing it  
seemed likely that the fair would  
be a success. The weather was  
of a decline, perhaps not very  
material, would be recorded.

Edmonton's fair is a different  
affair. It is a different affair.  
It is a different affair. It is a  
different affair. It is a different  
affair. It is a different affair.

Edmonton's fair is a different  
affair. It is a different affair.

## Poems That Live

THE KING OF DREAMS

Some must delve when the dawn is high:

Some must tell when the moonlight beams:

But when night comes and the clouds are deep,

Every man is a King of Dreams!

One must plod while another must fly

At plod or plom till the sunset streams,

But when night comes, and the moon rises high,

Every man is a King of Dreams!

One is slave to a master's cry,

Another seer to a despairing sigh,

But when night comes, and the clouds are deep,

Every man is a King of Dreams!

One must plod while another must fly

At plod or plom till the sunset streams,

But when night comes, and the moon rises high,

Every man is a King of Dreams!

## Sunshine Shafts

father: "Why did the teacher say you were a saint?"

Willie: "We were having a lesson on the Ten Commandments."

Teacher: "And you were a saint?"

Willie: "Yes, sir. I showed him my hand."

Mary: "Why do they keep telling me I'm a saint?"

Teacher: "Because you are a saint."

Mary: "Well, when I pray I feel like a saint."

Teacher: "Well, when I pray I feel like a saint."

Mary: "Well, when I pray I feel like a saint."

Teacher: "Well, when I pray I feel like a saint."

## Railway Costs of Hauling Coal

By R. T. ELLIOTT, K.C.

There is no need of reference to works on astronomy in order to get figure big enough to cover the cost of hauling coal by rail from mine to consumer's place of residence.

The practical way to adopt is to give the railway an ample basis of earning power as a railway built for the service of the nation. Nothing more can honestly be asked; and nothing else results.

This simple, honest basis of earning power resolves itself into a mileage problem—nothing to do with high finance—turn this mileage problem lends itself to a zoning principle where under such community will get a uniform delivered cost of coal, because only in this way can maximum traffic, and thereby maximum railway earning power be developed.

A highly remunerative figure for zoned coal traffic by rail is arrived at as follows:

1 Haul of loaded train per mile .....	\$1.25
2 Haul of return cars, per mile .....	0.75
3 Railway yard handling charges, per mile .....	0.25
4 Equipment maintenance and repairs, per mile .....	0.50
Total per mile for coal train to ultimate destination and return .....	\$2.75

For a thousand mile haul the train will cost, for haulage of coal and return of equipment to the starting point, \$2750.00. Over Canadian National Railway takes a \$200 per train load is reasonable proposition, so that \$10.00 per mile will be a reasonable estimate of haulage cost for the 1000 miles.

At a zoned freight rate of \$1.50 per ton to every community within the 1000 mile rail, it will be practicable to reach the Pacific at the Port Main terminal and of the Prince Rupert terminal, including equal delivered cost service to every intervening community, so as to give a profit of \$140.00 on each trainload hauled. To this must be added the increased rail traffic, both freight and passenger, due to increased employment in the coal mining centres and to the growth of local industries in the communities served by the delivered service rate they can get coal at a price comparing approximately with world values.

Similarly, a 1000 mile zoned rate haul or a 1500 mile zoned rate haul can be established for delivery of coal to communities lying east and south of the Alberta coal mines. The railway will receive real money; the coal mining areas will develop great earning and commerce building communities.

The effect on all the communities given the equal zone delivered rate will be to lead to the cost of living by an amount about equal to the lead of taxation.

Surely the people of Canada have listened to enough talk about the railway problem, and are entitled to point out that one main answer is to haul Alberta coal to the coast at low rates, instead of leaving the coal in the ground and getting no rates at all. Any ordinary merchant trying to carry on his business by selling at prices which nobody can buy will soon find himself under the care of brain trust specialists.

## Mother Slain, Boy's Bereft

## WIDE REARMING REVIVES MINING OF QUICKSILVER

Producers Ready to Reopen Pits With Their Market Protected

SAN FRANCISCO, July 15.—Once the world's greatest market for quicksilver, San Francisco has set out to regain a place in the past.

Within the past few months two deals have been made for operating again the 28 quicksilver mines of California that include not only the largest one on the continent but the second largest in the world.

Two things, quicksilver producers point out, have contributed to the "hidden need for rejuvenation" of quicksilver, San Francisco has set out to regain a place in the past. Within the past few months two deals have been made for operating again the 28 quicksilver mines of California that include not only the largest one on the continent but the second largest in the world.

## ROW RENEWED OVER POLAND'S RULE OF VILNA

Lithuania's Claim to City Reasserted With Rise in Antimosity

VILNA, July 15.—The burial of Marshal Pilsudski's heart here on May 12, 1936, served only to aggravate contention between Poland and Lithuania over this city as being the seat of the Polish empire.

Over the right of possession of Vilna is particularly bitter because of sentimental attachments which have their roots in the histories of both countries.

Poland and Lithuania were united in 1569, a year which saw the beginning of the Polish-Lithuanian Commonwealth.

After the first world war, when Poland regained its independence, it claimed Vilna as its capital.

Lithuania, on the other hand, claimed the city as its capital, and in 1920 it was the scene of a bitter struggle.

The city was eventually handed over to Poland, but the Lithuanians have never accepted this decision.

The recent burial of Pilsudski's heart has renewed the controversy, as it was seen as a Polish triumph.

The Lithuanians are determined to assert their claim to the city, and the row is expected to continue.

## Right of Court Is Challenged By Republican

LONDON, July 15.—A heavily guarded court yesterday defiantly challenged the right of a Northern Ireland court to bring him before the Bar of Justice.

Hugh MacLennan, Jr., one of six men named yesterday as the Royal Ulster Constabulary's casualties was brought before the court.

The court, which is sitting in Belfast, is hearing the case of the six men, who are accused of being involved in the recent bombing of a police station.

The men are all members of the Irish Republican Army, and are being held in custody.

The court is expected to deliver its verdict within a few days.

The men are all being held in custody, and are being treated humanely.

The court is expected to deliver its verdict within a few days.

Germany has placed a ban on "The Merry Widow" in Berlin. The attitude seems to be that, if anything, Germany is the only country that will attend to it.

# Yip! Betty Grable's Romance Make Her a Great Hollywood Star?

She Was Just Another Pretty Movie Girl Until She Fell in Love With

Jackie Coogan—Now Everyone Wants to See Her.

If you want a career in movies, fall in love—but don't get married.

At least that is the way that it seems to have worked out in the case of Betty Grable, the pretty 19-year-old fiancée of Jackie Coogan, who made his millions as a child star some years ago.

Now, of course everyone in Hollywood thought Betty was a very pretty girl with a lot of talent. She has been in the movie capital since she was a little girl. (Betty is pictured on this page today.) Betty succeeded several years ago in gaining the attention of movie directors. She is blond, just 5 feet 3 inches tall and weighs 106 pounds.

But despite all her beauty and natural talent, she seemed to be getting nowhere. Her most important role had been a stooge to Wheeler and Woolsey in one of their comedies.

Then love came into Betty's life—an honest-to-goodness page one romance.

Jackie Coogan, who, everyone thought was going to marry curvaceous Toby Wing, suddenly switched his affections to Betty Grable.

Young folks in love always interest everyone, the movie public included. Shortly after their engagement was announced Jackie Coogan and his pretty fiancée started out to tour the nation in public appearances.

People flocked to see them—largely because of their romance.

But, despite the fact that Betty's and Jackie's love affair is actually "on the level," they will not be married—not for while at least.

Betty has agreed in her movie contract that she will not marry for two more years.

But as a result of her love affair and all the attendant publicity, Betty is going to get bigger and better movie roles, which may make her a big star.

## Movie Writers Drop Card Game To Aid Don Marquis, Blind

Don Marquis, once one of the most unique and most popular of American writers, is now broken in health, nearly blind and without finances. A few nights ago a group of writers met for a card game in Hollywood and some one mentioned a story of Marquis that was submitted but refused for movie because it was not suitable.

Those who had met to play cards were the McClint brothers, William Rayburn and Patterson Gene Fowler, normally Johnson and Grever Jones.

After hearing of Don Marquis' serious illness, Fowler said to the others, "This is no time to play cards."

The others agreed to this group of the highest salaried film writers rolled up their sleeves and went to work on Marquis' story, called "Table Cloth Millionaire."

They worked all night and ran into the next day, which was Sunday.

The story is now certain of sale.

## How French Actress Hoaxed Hollywood Studio About Illness

Simone Simon, the temperamental little French actress, had her Hollywood directors going in circles. Each time she fell contrary she would declare she was ill.

To prove her illness she would thrust a fever thermometer under her tongue and a few minutes later would haul it out, showing that her temperature registered 100.

So often did this occur that the studio officials became suspicious. They discovered Miss Simon's thermometer always registered 100, regardless of her temperature.

Now Simon doesn't become ill any more.

## Harry Richman Lost Job Over Flirting

Harry Richman, one-time beau of Clara Bow, and now a well-known Broadway entertainer just missed being a chauffeur by one week.

In fact Harry had a job as a chauffeur. But one day he forgot to watch the road and turned to flirt with a pretty girl on the street.

The car was wrecked and Harry was fired.

So proud was FRANCIS LEDERER of the cabby he rides on his California ranch, that he sends autographed heads to his movie friends.

Senja Henle, the little Norwegian singing star, is said to be demanding \$100,000 for a single picture in Hollywood, and probably will get it.

Indians on location for "Last of the Mohicans" are being taught Indian lore and woodcraft by Tom Mix, Jr., Eagle Boy Scout.

Olympic Bradsen, Paramount's new dancing sensation, is said to be only 15 years old.

and all the proceeds will go to Marquis who doesn't even know about it yet.

## 2 Famed Dancers "Steal" Ideas at Public Dances

Nor and Yolanda, the world's greatest ballroom dancing team, frequently go to public ballrooms to dance after they have finished their act at a night club or theatre.

There, this \$4,000 a week dancing team (they're man and wife) dances unnoticed among hundreds of other couples.

They go to the ballrooms, they admit, to "steal" new ideas for dance routines. Frequently a new step they see some couple taking is exploited into a complete dance routine.

BABE RUTH, the home run king, is an amateur pianist and is soon to have an original tune published, "Home Run on the Keys," a fancy instrumental number.

Because her part in "Lost Horizon" requires ISABEL JEWELL to be plumper at the finish than at the start of the picture, she has been ordered to eat 6 meals daily. She started at 90 pounds and now weighs 97 pounds.

A German airline has inaugurated special theatre service out of Berlin. Theatre parties are brought into the show from points 100 miles away by plane. Leaving immediately after the show, they are home by midnight.

There's a fad in Hollywood at the moment among certain of the male to wear huge exercise collars. W. C. FIELDS comedian saw one on a friend's neck, pulled it off gently, perked it up and asked, "What are you expecting a collar?"

## An Ideal Summer's Day in the Country

(What the Confirmed City Dweller Really Wants)

6 A.M.—(Bright and early, the morning sun beating down, the dew on the grass, the birds singing, etc.)—Sleep.

9 A.M.—A good breakfast consisting of a cup of coffee and a half a roll.

10:30-11 A.M.—Rest, and read the morning paper from the city.

11:15-12 P.M.—Five or six easy strokes of good swift tennis.

12:15-1 P.M.—Hot bath, rest, and morning nap.

1:30-2 P.M.—A little light reading.

2:15-3 P.M.—Lunch around the festive board. (Has salad sandwich and a cup of tea.)

3:30-4 P.M.—Rest.

Betty Grable playfully leaps over Joan Davis, another KKO starlet, as they romp on the beach.

## HARRY, GIRLS! HANDSOME BOB CAPITOL'S STAR

What is being acclaimed the screen's "perfect love team" Saturday opens a week's run at the Capitol theatre in the Fox picture, "Private Number." Handsome Harry Taylor and lovely Loretta Young are co-starring and the combination is said to be the outstanding film romantic union since Janet Gaynor and Fred Astaire were first put together.

Romance, in fact, is the keynote of "Private Number," although comedy, drama and suspense are also interwoven in the plot.

Robert Taylor falls in love with his mother's personal maid while on a summer vacation in Maine. The girl is convinced that nothing permanent can possibly come of such a social mixture but she loves Taylor so much that she accedes to his wishes and marries him.

Taylor wants to inform his family immediately but Loretta persuades him that it will be better to wait until he completes his college course.

Loretta stays on in her position and Taylor returns to school.

His mother discovers that Loretta is going to have a baby. When Loretta refuses to reveal her husband's name, Patty Kelly blurs out the truth.

Loretta's forebodings are realized and she is treated so cruelly by Taylor's family that she runs away and has her baby secretly. Taylor returns home and finds that his wife has disappeared. The family contends the fact that they practically drove the girl away and attempt to persuade Taylor that she was only a gold digger.

Taylor and Miss Young are said to reach a new high in romance as the picture concludes with a thrilling climax.

"Private Number" was directed by Roy Del Ruth with Raymond Griffith assisting as producer. The screen story was written by Gene Markey and William Cagney, based on a play by Cleves Kincaid.

Gigolos have been banned at the Cleveland Great Lakes exposition. The news also has barred nudity on the midway.

NAT PENDLETON, strong man of the screen, has a hired telet. Now while waiting a newspaper. Nat frequently will hand it to his telet, saying "turn to the sport page, you'll find me there."

Franklin Tovey, one of the sweetest men I have ever known," says Grant Tinker and of course Joan Crawford agrees.

TOBY WING has received more fan mail in the past four days than any other actress. COLBERT or CAROLE LOMBARD, yet Paramount allowed her contract to lapse.

Despite her fame, JOAN CRAWFORD never plays in movie scenes with other well known actors or actresses without getting an inferiority complex.

No untold double features have become so common, a New York theatre is setting up four complete features to its patrons for the. The complete show lasts five hours.

Playing on a 30-30 percent, Eddie Cantor recently collected \$1,000 for one week's work at the Palace theatre in Chicago.

Few singers either in opera or radio, strike their notes so exactly as KATE SMITH. Critics say they have never heard Kate chortle or falter.

To induce tourists to follow her ace Greely's advice of, "Go west, young man, go west," the Fort Worth, Tex., exposition has hired SALLY RAND, fan dancer, to "Nude the" a convention called, "Nude Ranch."

An old lady in Alabama gives the husband the right to chastise his wife, but she is larger around than his thumb.

JOCK WHITNEY always buys two plane seats when he flies from Hollywood to New York. He always one and puts his feet in the other.

HELEN TWELVETREES, WOODY, is now frequently escorted by a MR. FOREST.

MARGARET SULLIVAN plays no favorites in the matter of ex-husbands. After spending the season playing tennis with her first husband, HENRY FONDA, she and her husband, WILLIAM WYLER, called and took her to a preview the same day.

FANNY BRICE, is a rehid prize fight fan and usually gets a seat with the sports urinals.

For 10 solid hours they washed Ginger Rogers' hair. It simply had to be done for a picture. The scene was shot in separate times. Ginger's hair was still red at the finish.

LYON BONDLE—"I always have a little bit of a crush on you." LILY PONS—"Ten more years I sign—then I buy a farm."

RICKARD CORTEZ—"I'm just a big—"

Remarkable Radio

"Sometimes when it rains we can get the major stations." Mrs. Conway says in the conversation.

Suddenly the radio became silent. "Conway" laughed. "That's nothing," he said. "It often does that." He went into the kitchen and pulled the electric light cord.

The radio began again. "Funny thing about that," Mr. Conway remarked as he returned to his seat. "When it goes off like that all you have to do is turn the light on or off in the kitchen or the bathroom."

They listened to the music for a while and Mr. Conway had to make some other trip to the music for a while. Mr. Conway said a faint growl which gradually grew louder.

"You'd better turn it off now," Conway remarked as he returned to his seat. "But to be sure it is not better for some time it will be like that," he told Mr. Conway.

Mr. Conway said that it was not better for some time it will be like that, he told Mr. Conway.

Mr. Conway said that it was not better for some time it will be like that, he told Mr. Conway.

Mr. Conway said that it was not better for some time it will be like that, he told Mr. Conway.

Mr. Conway said that it was not better for some time it will be like that, he told Mr. Conway.

## Pastor's Derby Appeal Taken As A Tip To Bet

A Minneapolis pastor, seeking to be timely in his collection appeal just prior to the Kentucky derby, pleaded, "This church right now is running a sweepstakes in which the horse, 'Justice and Charity,' will without doubt pay 100 to 1 for every cent put up."

Take the pastor's statements too literally, a woman parishioner appeared the next day at the pulpit.

## I Get Mixed Up

Putting my fedora in the wire holder under a theatre seat. Finding the guest bathroom no matter how careful the host or hostess have been.

Putting heads in an automatic pencil.

Heading the directions for a new head cold remedy.

Approaching any toll bridge by the silverware at formal dinners.

Handling back a flaked cigarette.

## Jack Dempsey, Once A Socker, Now Is In 140

It appears Jack Dempsey, who made his money and fame knocking guys on the chin, is headed for New York's 400. Jack has been made trustee of a fashionable hospital.

And, believe it or not, Mrs. Morgan Belmont of the society crowd is tendering a testimonial dinner in Jack's honor.

—Charles Munroe

## What Hollywood Stars Have To Say

The following sayings have been gathered from interviews from famous screen stars by Movie Hunter magazine.

TOM BROWN—"If I find myself falling in love with a girl, I don't see her for a while."

BING CROSBY—"Mother saved me from being a lawyer and Dixie Lee this will save me from being a bum."

LEFE VELEZ—"In 10 years from now I hope we will be as happy as we are right now. And I hope for Heaven that Johnny Johnny McLeod, my husband and I, will keep on fighting."

MIRIAM HOPKINS—"I have no idea what it is to be a star."

LEE TRACY—"What do I want with marriage? I've looked the matter over from all angles and I can't win."

# PAIR GAMES IN NORTHERN LOOP SUNDAY

## Cards Go To Ponoka and Wetaskiwin Meets Shastis Here

Two crucial games face teams in the Northern Alberta basketball tour over the weekend. On Sunday the Cardinals will travel to Ponoka where they will struggle with the powerful Panthers and a win in this game will move the Ponoka team out in front of the field with two straight wins. In the Cardinals' quest for a win the second half of the league will be fairly even.

On the same day, in Edmonton, the Wetaskiwin nine will meet the rejuvenated Shastis. This is Wetaskiwin's first game in the second half of the league. The cafeteria stands with one win and one tie to their credit. A repetition of the form flouted against the Cardinals should be enough to win, and if they do come through they will move well up in the league.

## Monarchs Play Whiskers Here

The newbuckered House of De Montpelier will meet the Kansas City Monarchs here on Wednesday in an exhibition game at Bedford Park. The game will start at 8:30 o'clock. With these two major performers on the team, the Monarchs will be in the "big" for Edmonton ball fans on Wednesday, July 23.

# Breezes Through to Victory; Saxon King Takes Legion Purse

## Miss Swarthmore and Top Lap Pay \$37.65 On Daily Double—Little Satin, Purple Rock Combine for \$42.20 Quinella

Although pari-mutuels took in a trifle less money than last year, there was a goodly crowd at the track yesterday for the third day of fair week racing.

All pay-offs were within the bounds of imagination with substantial ones thrown in with smaller ones on successful favorites. The Daily Double, for those who picked Miss Swarthmore and Top Lap, knuckled down \$37.65. The Quinella in the seventh race was good for \$42.20 to those banking on Little Satin and Purple Rock for their week's board.

The Juvenile Purse for younglings was a two-year-old, handily after a good start, from the chute. He was never threatened throughout the entire five furlongs. Early Pot, who came in second, took place easily enough, but could not match the fast pace of Whiff.

The second 1/2 mile race, like the first, was a two-year-old, handily after a good start, from the chute. He was never threatened throughout the entire five furlongs. Early Pot, who came in second, took place easily enough, but could not match the fast pace of Whiff.

The first race was a two-year-old, handily after a good start, from the chute. He was never threatened throughout the entire five furlongs. Early Pot, who came in second, took place easily enough, but could not match the fast pace of Whiff.

## Progress Made on Modern Home

The G.E. "Home of Tomorrow" being constructed by E. Litchfield, builder, and sponsored by The Edmonton Bulletin, is now taking more definite shape and will be open for inspection and viewing by the public in a modern, new cost as exhibited home for the average Canadian family of moderate income, it will revolutionize future building of Edmonton homes. Situated at the corner of 102 Avenue and St. George's Crescent, it already has attracted the attention of thousands of Edmonton citizens, who are eagerly following its construction.

## Here Are Details Procedure Under Dominion Housing

By HON. CHARLES A. DUNNING  
The Dominion Housing Act of 1933 is a two-fold in purpose. It is designed to stimulate construction, thus relieving unemployment, and to enable Canadian families, particularly those of small or moderate means, to own homes of their own.

It establishes the machinery and form of the conditions which make it possible to give immediate financial assistance to those who wish to build homes of their own.

Many people hope that one day they will own a home of their own. A home built to their own liking and with the modern conveniences and ideas that they have been forced to live without. These monthly payments do not make the difference between a house and a home.

The Dominion Housing Act makes financing and a plan for moderate monthly payments comparable with monthly rentals.

This new plan of financing involves a first mortgage up to 80 per cent of the cost or appraised value of the property, thus eliminating the need of a second mortgage which is always costly and under present conditions almost impossible to secure.

The mortgage moreover is for a long term and bears a low rate of interest. These desirable objectives were accomplished by the Dominion of Canada entering into agreements with approved lending institutions and local housing authorities, whereby the government makes an advance of 20 per cent of the cost or appraised value of the property, and above the loan of 80 per cent, to 60 per cent, which is made ordinarily by a private lending institution.

In other words, the plan makes possible a low rate of interest, a high percentage mortgage and the advantage of monthly payments over a long term of years.

**THOSE ELIGIBLE**  
In order to be eligible to borrow under the Dominion Housing Act, the owner must have a certain amount of equity. That is to say, he must be able to make an investment from his own resources equal to the difference between the cost of the new house and the proceeds of the first mortgage. This equity must be in the form of a building or available cash, or both. In addition to this, if his application is made available for the first time, the approved lending institution, the borrower must have a reputation for creditworthiness and must be reasonably assured of sufficient income to meet the monthly payments for interest, principal and taxes.

Mortgage loans under the Dominion Housing Act may be made only to assist in the construction of a new house. They do not apply to alterations, additions, or the refinancing of houses already built. Houses, which may be a single house, double house or apartment house, must be for dwelling purposes only. The loan cannot be made under the Act for stores or other commercial projects, although, of course, the house may have an attached or detached garage.

Loans will be made in normal cases on the basis of 60 per cent of the actual cost of construction or appraised value of the property, whichever is the lesser. The cost of construction includes the cost of the land, building, legal expenses, owner's fees, and the cost of all permanent improvements to the property.

high as 80 per cent, because of the location or character of the property. Provision is therefore made for 70 per cent or 75 per cent loans as well as for 80 per cent loans. Thus, it will be necessary for a borrower to have an equity of 20 per cent, 25 per cent or 30 per cent, depending on the amount of the loan.

### INTEREST LIMITED

The mortgage is for 10 years and the interest paid by the borrower is limited to five per cent per annum. Subject to a revaluation of the security, the mortgage may be renewed for a further period of 10 years on conditions mutually agreed upon at the time of renewal.

The mortgage provides for monthly payments to cover the interest on the loan, the repayment of the principal, and the estimated taxes on the property.

These monthly payments do not commence until after the house is completed.

The monthly payments of principal and interest are so calculated as to pay off the mortgage in 20 years or the borrower may arrange to pay it off at a higher rate, or at any time after three years to pay off its full upon payment of a bonus equaling three months' interest on the amount of the loan then outstanding.

Plans and specifications for the new house are required to be submitted with any application for a loan. The Minister of Finance has issued Minimum Standards of Construction which lay down MINIMUM requirements to which plans for all houses must conform before an application for a loan will be approved, and also Memorandum Specifications which make it easy for the prospective home-owner to decide upon the type of materials and the method of construction which will give him the best value for the investment he wishes to make, and also make it possible for the architect or builder to comply with the requirements of the Act.

Specifications must be submitted. If the house is constructed according to these Standards and the Memorandum Specifications, the owner should have a well-built house.

### HOW TO FINANCE

If you wish to finance a house under the Dominion Housing Act, write to or apply personally to an approved lending institution. Give all details as to what type of house you have in mind and where the building is located. Also, give some information about yourself which will indicate to the lending institution your ability to repay the loan.

If this information proves satisfactory the lending institution will send you application forms and complete instructions regarding the plans, specifications, and other documents required.

The Act is to assist in the construction of a new house, therefore, certain periods, in accordance with the lending institutions' usual practice, money will be advanced upon the recommendation of the supervising architect or the company's own inspectors.

It should be understood that the borrower must contribute his agreed equity before any monies are advanced under the mortgage. Let us assume that the "purchase value" of a house that is the lesser of the two amounts—actual construction or appraised value of the completed property is \$5,000. An 80 per cent loan would amount to \$4,000. The monthly payments required to pay interest and principal would be \$215.15. On this basis, the loan would be reduced to \$2,734.44 in 10 years to \$1,510.10 in 15 years, and would be completely paid off in 20 years.

value, and an 80 per cent mortgage is as follows:  
Owner's equity \$1,000 20%  
D.H.A. mortgage 4,000 80%  
\$5,000 100%

The Dominion Housing Act Mortgage:  
Lending Institutions share \$1,000 20%  
Borrower repays 4,000 80%  
\$5,000 100%

(At an effective rate of 5 1/2 per cent.)  
A monthly payment of \$215.15 with interest credited each month will at the end of each half year, amount to \$1,510.10.

## LOSS IN ISLAY BLAZE \$10,000

ISLAY, July 15.—Fire of unknown origin destroyed J. Kelly's livery barn and H. D. Houston's hardware and truck, on Main street, with damage estimated at more than \$10,000, early Friday. The hardware stock was partially insured but no insurance was carried on the stable.

The blaze started about 2:30 a.m. in the livery barn, raising it and burning several tons of hay and 125 bushels of oats. It spread to the hardware store, which was also insured. The books, cash register and a few small articles were saved.

A strong wind was blowing from the southwest, endangering several residences but these were kept drenched with water. The Vermilion fire department arrived after the buildings had collapsed.

A few fifteen airmail stamps of the United States, which show the skyline in the centre flying up side down, now are valued at \$100 each.

## BUILDING IN 58 CANADIAN CITIES DOWN

Ten Per Cent. Lower in  
June Than in June of  
Last Year

OTTAWA, July 18.—Value of building permits in 58 Canadian cities was more than 10 per cent lower last June than in June, 1935, the Dominion Bureau of Statistics reported today. The value was \$4,580,740, up \$4,400,000 from the previous week, but \$24,115 below the level of June a year before.

The bureau said the value of the building authorized in the first six months of this year was \$17,000,000, considerably lower than the \$24,480,311 reported in the period January-June, 1935, decidedly higher than in the first six months of either 1934 or 1933.

The cumulative total for the same period in each of the last five years has been much lower than in any other year on record. Wholesale prices of building materials have also been decidedly lower since 1931 than in any preceding year since 1920.

Some 50 cities furnished detailed statistics for June, 1936, showing that they had issued more than 400 permits for dwellings valued at approximately \$1,000,000 and for some 1,800 other buildings, estimated to cost about \$2,000,000.

Increases recorded in Prince Edward Island, Nova Scotia, Quebec, Ontario, Saskatchewan and Alberta, recorded increases in the value of the building permits issued during June as compared with the preceding month.

At Vancouver, June, 1935, Saskatchewan registered an increase of \$70,930 or 12.6 per cent of the permits of \$550,000 or 56.7 per cent in Alberta was most pronounced. Montreal and Toronto recorded increases in the value of the permits issued as compared with May, 1935, but decreases as compared with June, 1935. Winnipeg and Vancouver showed losses in both comparisons.

Among cities reporting improvement over May, 1936, and June 1935 were Regina, Saskatoon, Edmonton, Lethbridge, Nanaimo, New Westminster and North Vancouver.

## World's Oldest Woman Active At Age of 131

British United Press

JOHANNESBURG, July 18.—Believed to be the world's oldest woman, Anna Louw, a Griqua woman, is still active at the age of 131.

When a parish clergyman was filling in her census form, owing to her blindness, he could not believe her age. Her claim, certified by the local magistrate, was produced, and this showed that she had been christened at Pieterburg in 1805 when her age was given as 105.

"I was born on the Vaal river, in the Cape," says Anna, and spent most of her life near Kimberley—not the one they think of but the one they found the diamonds were found.

"Nothing has ever happened to me. I saw no wars, lived very happy, keeping house for my husband, and sometimes doing work for white people."

"My husband died a long time ago, and I have been much so long. In fact it is so long that I do not know much about these trains and motor cars they tell me about."

"I am very tired now. I cannot get food, and I am too old to make any more. My husband died before Kimberley was colonized by white people."

## ALPINE PARTY SCALING PEAK

VANCOUVER, July 18.—Don Baker, Vancouver mountaineer, Friday told of the progress being made by a party of seven British Columbian and Alberta climbers attempting to scale the ice-belted, forested Mount Washington, the coast range's "mystery" mountain. If nothing unforeseen has happened since he left the party last Monday at the foot of Franklin Glacier, Baker said they should have established their base camp at the head of the glacier on the 1,000-foot level by Friday.

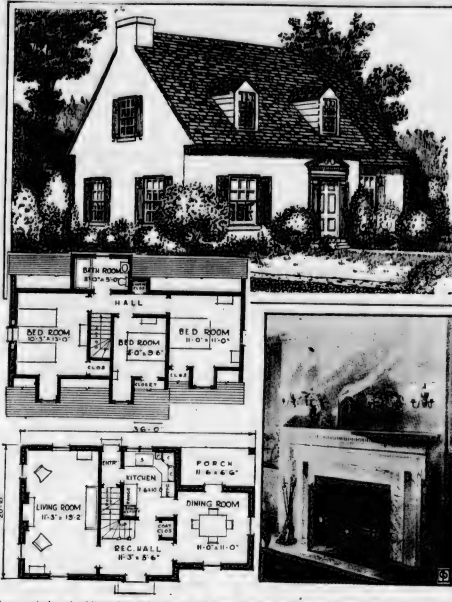

Baker recently returned from Knight Inlet, from where the party is making its way inland to Franklin glacier at the foot of the giant mass. He said the German party headed by Fritz Weimer is also in the vicinity of the mountain, making plans for the climb, but will delay until August until the Canadian-American party has had an opportunity to attempt the hazardous climb.

**Litvinoff Hailed**  
MOSCOW, July 18.—Maxim Litvinoff, Soviet foreign minister, was hailed Friday as a messenger of peace by Communist Party leaders and organizations of the people upon his 60th birthday.

Scratched into finish now can be viewed with the island manserfer stage, available in all standard colors.

## This Type of Home Popular

Simple Cape Cod Lines Make For Economical Construction

Above, exterior of whitewashed brick Cape Cod house; below, left, interior plan; right, detail of historic Webb mantel.

All the atmosphere of Cape Cod is evident in the exterior of this pleasant house which contains six well-arranged rooms. The house is a whitewashed brick with dormers, shutters, dignified entrance and simple roof lines.

This type of architecture is extremely popular today, and justly so, because simple lines and economical construction go hand in hand.

The beauty of the interior is high-pointed by the historic Webb mantel in the living room, shown

below, at right, and the open stair in the reception hall. Both are reproductions of authentic colonial pieces.

The interior plans show the large reception hall, large living room, dining room, kitchen and porch. The second floor contains three well-ventilated bedrooms, each with its own closet, bath with linen closet, and bathroom.

Suggested exterior trims are dark green, with window shutters blue-green, roof grass green. This house may be built for from \$4,600 to \$5,100.

## LIVING INDEX FOR JUNE WAS UP SLIGHTLY

OTTAWA, July 18.—The Dominion Bureau of Statistics today reported its index of living index for June higher than a year before, but slightly lower than in May, due to seasonal declines in coke and coal prices.

The index rose from 788 in June, 1935, to 80, compared with 801 in May. The food index remained unchanged at 713 as former prices of onions and potatoes were offset by declines in butter, corn, salmon, corn syrup and ground meats. Fruit and eggs on the supposition 1936 equals 1935.

The bureau gave comparable figures for June of other years in the food group. In 1933 it was 693, in 1932 it was 622, and in 1929 it was 578.

# Today's Markets

## At Toronto—Minerals

TORONTO, July 18.—Minerals were higher for mining stocks on the Toronto Exchange today but selling pressure resulted in a fair share of declines.

Read-Ashbur and O'Brien closed the \$4 mark in new lots of 37 and 40 respectively and held within a few cents of top of the close. Canadian Pacific sold in higher at \$38 for a 1000 share and McGowan and McKelock closed and lost but were higher.

Clark-Hughes hit another bid price of \$4 and 1/2. Done and Lave were unchanged to a little up.

## Toronto—Industrials

TORONTO, July 18.—Usual dull stock session and few and narrow price changes were the rule on the Toronto Exchange today. The C.P.R. slipped to 54 1/2, Amalgamated to 54 1/2, and the rest of the industrials were down. The C.P.R. was better at 54 1/2, and the rest of the industrials were down. The C.P.R. was better at 54 1/2, and the rest of the industrials were down.

## At New York

NEW YORK, July 18.—Shipment in the corn belt, together with continued favorable industrial news, helped to keep the stock market on a fairly even keel today, but recovery vigor was lacking except in specialties. The stock was steady. Transients estimated 80-90 million shares of stock unchanged to up around 2 points.

Included Federal-Mogul, Bethlehem, General Electric, International Petroleum, and McGill preferred were fractionally higher and Radio American lower at 24 1/2. Bathurst Paper A lost 1/2.

## At Montreal

MONTREAL, July 18.—Profit taking was restricted aside in today's stock market and gains permitted to fade at the close.

Canada Corp. preferred closed in 1/2, a little up of 1/2, but held steady. The foreign division was irregular.

## NEW YORK BONDS

NEW YORK, July 18.—Listed bonds moved higher after the opening of the week today after the strong rally in the stock market.

# NORTH MINING DEPENDENT ON WATER ROUTE

## Government Improvements Will Aid in Developing Northern Mineral Areas

One of the most important features of the mining development in the north is the fact that the industry is vitally interested in the improvement of the waterway route between the Yukon and the Pacific coast. The government is now undertaking a project to improve the waterway route between the Yukon and the Pacific coast. The project is being undertaken by the government and is expected to be completed within a few years.

subsidies continue liberal on all ad-  
vances and shipments from this quar-  
ter sure to increase. Canada no  
holds the reins and will prob-  
continue this position throughout  
all.

**LONDON CLOSING**

LONDON, July 18.—The dollar weak-  
in a quiet foreign exchange mar-  
today, declining  $\frac{1}{8}$  and closing at  
to the pound against the same  
night New York rate. French  
closed at 75.57 francs to the  
dollar compared with 75.54 yesterday.

offering of good dry-fed cattle  
are readily cleaned up at steady  
prices. There is practically no de-  
mand for stockers, particularly com-  
mon kinds and these are hard to  
move. Farmers will be very glad  
to keep back this class of stock  
at all possible. Following are the  
quotations on grass cattle:  
Good to choice steers \$2.25 to \$3.75;  
medium \$2.50 to \$3 and com-  
mon \$2.75 to \$4.25. Good to  
choice heifers \$3 to \$3.50, common to  
medium \$1.50 to \$2.50. Good to choice  
cows \$1.75 to \$2, mediums \$1.25 to  
\$2, and common from \$1 to \$1.25.  
Hens and cutters 30c to \$1; bulls  
to \$2.25.

many parts of the world, especially in Scotland, have been designated other parts of the world bearing their name. However, there connection with goose at all. The name was probably taken from the "goose" (or "gorse"), which is a prickly plant, although some of its origin was from the middle German "grus," which means "berry." This berry is quite acid and its sharp hairs projecting from the many wild as well as of the species. The wild species differentiated from wild currants their sharp projections.

## A BEDTIME STORY

Story by HAL COCHRANE Pictures by GEORGE SCARRO

Oh! Thunder in the moonbeam said, "Well, I have no doubt that you, great to have me, I'm going to stay. Just the same, I'm going to stay."

"I blotted out the bright old moon, but he'll be all right pretty soon. He'll have to wait, however, till no more I want to play."

"You are, with thunder I've had."

"Fine, though you dislike what I do, I'll hand another case to you, as soon as you'll shoudner. I'll gladly run away."

"Come on with me, I have a plan to whisker. And the two lots quickly scampered out of sight. Said Scouty, "Let's go to the moon, and word best do it pretty soon. We'll fool of Thunder, if the plan I have in mind works right."

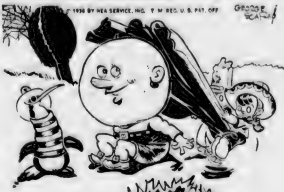

"You need think of nothing else to do. You scared us with your thunder and your lightning. That's all."

"No longer do we want you here. Over the moonbeam, disappear! We love to play with anyone, but you are much too rough."

"Ha, ha, oh! Thunder, laughed in glee. "You little lads are scared of me. Well, I have tried to be nice, but I see it doesn't pay."

"Ah, no more Scouty, need you say," cried, Cappy. Then they jerked the cloth. The moon crept out. That's fine."

"The Moon, when of Thunder right out of the picture in the next story."

(READ THE STORY THEN COLOR THE PICTURE)

fun, and stop and think what I have done with lightning. I've entertained the Tinnituses right well.

"Oh, never mind," snarled Giddy. "You need think of nothing else to do. You scared us with your thunder and your lightning. That's all."

"No longer do we want you here. Over the moonbeam, disappear! We love to play with anyone, but you are much too rough."

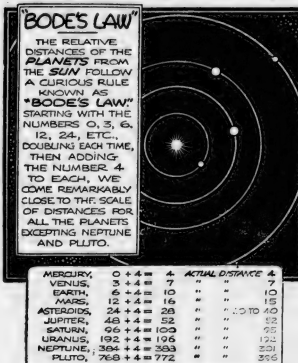

"Ha, ha, oh! Thunder, laughed in glee. "You little lads are scared of me. Well, I have tried to be nice, but I see it doesn't pay."

"Ah, no more Scouty, need you say," cried, Cappy. Then they jerked the cloth. The moon crept out. That's fine."

"The Moon, when of Thunder right out of the picture in the next story."

## Curious World

## By William Ferguson

BUT NO ONE HAS BEEN ABLE TO GIVE A REASON FOR THE LAW!

Bode's Law is one of the mysteries of astronomy. Using the number 10 to represent the distance of the earth from the sun, Bode's Law shows Mercury to be 4, Venus 7, etc. At the time the law was discovered, a large gap existed between the planets Mars and Jupiter, and since the series of figures showed that a planet should be in this area, astronomers went to work and discovered the asteroid group occupying the space.

## Psychoanalyst

**HORIZONTAL**

- 1,780-year-old scientist
- Climbing herb
- Epilope
- symptom
- To let fall
- Fortuitous
- Pierced out
- Half quart
- Vulgar fellow
- Bard
- Door rug
- Measure of area
- Intelligent
- Optical glass
- Before Christ
- Is victorious
- Long tooth
- Murrah
- To combine
- Tribunal
- Negative
- Alone
- Not soft
- Moroccan dye
- Hail!
- Serene

**Answer to Previous Puzzle**

BEETLE

**VERTICAL**

1. Garment
- Frosted
- Cotton
- Machine
- Mother
- Sider
- Song for two
- 700 in scale
- Bedacts
- Coffee pots
- Period
- disease
- Portugal
- To scream
- Yes
- Roman emperor
- Slouch
- Backstitch
- He studied the mental
- Entrance room
- Blush
- Saucy
- Too much
- Pole
- Affirmative
- Trunk
- Afternoon
- Alone
- Right

**Crossword Puzzle**
